### 2 Basis of Preparation

These financial statements are presented in pound sterling because that is the currency of the primary economic environment in which the Company operates.

#### 2.1 Compliance with International Financial Reporting Standards

The financial statements of Eversholt Finance Holdings Limited have been prepared on the historical cost basis. These financial statements have been prepared in accordance with International Financial Reporting Standards ('IFRSs') as issued by the International Accounting Standards Board ('IASB') and as endorsed by the European Union ('EU'). EU-endorsed IFRSs may differ from IFRSs as issued by the IASB if, at this point in time, new or amended IFRSs have not been endorsed by the EU. At 31 December 2014, there were no unendorsed standards effective for the year ended 31 December 2014 affecting these financial statements, and there was no difference between IFRSs endorsed by the EU and IFRSs issued by the IASB in terms of their application to the financial statements of the Company. Accordingly, Eversholt Finance Holdings Limited's financial statements for the year ended 31 December 2014 are prepared in accordance with IFRSs as issued by the IASB and endorsed by the EU.

IFRSs comprise accounting standards issued by the IASB and its predecessor body as well as interpretations issued by the International Financial Reporting Interpretations Committee ('IFRIC') and its predecessor body.

The Company is exempt from the requirement to prepare group financial statements by virtue of section 400 of the Companies Act 2006. The financial statements present information about the Company as an individual undertaking.

#### 2.2 Standards and Interpretations issued by the IASB

During the year, the Company adopted a number of interpretations and amendments to standards which had an insignificant effect on the financial statements. At 31 December 2014, a number of standards and amendments to standards have been issued by the IASB, which are not effective for the Company's financial statements as at 31 December 2014. The following Adopted IFRSs have been issued but have not been applied by the Company in these financial statements. Their adoption is not expected to have a material effect on the financial statements unless otherwise indicated.

### 2 Basis of Preparation (continued)

#### 2.3 Going concern

The financial statements have been prepared on the going concern basis because the Directors are satisfied that the Company, through the support of the Group and expected future dividend receipts from subsidiaries, has the resources to continue in business for the foreseeable future.

### 3 Summary of significant accounting policies

The principal accounting policies adopted are set out below and have been applied consistently to all periods presented in these financial statements.

#### 3.1 Income taxes

Income tax comprises current and deferred tax and is recognised in the income statement. Current tax is the tax expected to be payable on the taxable profit for the year, calculated using tax rates enacted or substantively enacted by the end of the reporting period and any adjustment to tax payable in respect of previous years.

#### 3.2 Subsidiaries

The Company classifies investments in entities which it controls as subsidiaries. The Company's investments in subsidiaries are stated at cost less any impairment losses. Any impairment loss recognised in prior periods shall be reversed through the income statement if, and only if, there has been a change in the estimates used to determine the investment in the subsidiary's recoverable amount since the last impairment loss was recognised.

#### 3.3 Share capital

Shares are classified as equity when there is no contractual obligation to transfer cash or other financial assets.

Dividends payable in relation to equity shares are recognised as a liability in the period in which they are declared.

#### 3.4 Use of assumptions and estimates

In the application of the Company's accounting policies, management are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from those estimates. There are no accounting policies that are deemed critical to the Company's IFRS results and financial position, in terms of materiality of the items to which the policy is applied, which involve a high degree of judgement and estimation.
