

## Eversholt Funding plc

### Section 172(1) statement for the year ended 31 December 2025

---

In discharging their duty to promote the interests of the Company under section 172 Companies Act 2006, the Directors of the Company have regard to a number of factors and stakeholder interests. These are described below.

Each of these factors is considered in relation to the Group's broader operations as explained in the section 172(1) statement within the Annual report and financial statements of Eversholt UK Rails Limited for the year ended 31 December 2025.

The Company was formed for the sole purpose of raising debt finance for the Security Group.

The Company is a wholly owned subsidiary and does not have any employees. Accordingly, the Directors do not consider the factors listed in section 172(1)(b) (interests of the Company's employees), section 172(1)(d) (the impact of the Company's operations on the community and the environment) or section 172(1)(f) (need to act fairly between the members of the Company) are relevant to the proper discharge of their duty under section 172.

#### *Long-term consequences of business decisions and maintaining reputation for high standards of business conduct*

The Company operates in a sector characterised by long-term relationships between stakeholders, driven by a relatively small number of market participants.

The Group provides rolling stock and rolling stock related services to train and freight operating companies ("TOCs" and "FOCS"). TOCS operate rail concessions via national Rail Concessions ("NRCs" for periods that vary from TOC to TOC but usually include a core term of between two and four years. As NRCs with privately owned TOCs expire the concessions will be nationalised and operated by a government owned operator whose functions will eventually be integrated into Great British Railways ("GBR"). In addition, the financial instruments issued by the Company typically have long maturities. Accordingly, consideration of long-term consequences are an inherent part of the Company's decision making processes. As a company that has issued publicly traded bonds and whose equity is ultimately owned by an infrastructure investor, the management of the Company considers that the interests of the Company and its ultimate owners are aligned in seeking sustainable value creation over the longer term through the Company's funding operations, promoting long-term strategic decision-making.

#### *Identification of, and engagement with, stakeholder groups*

The Company recognises the importance of maintaining strong relationships with its stakeholders in order to create sustainable long-term value, and the Board encourages active dialogue and transparency with all its stakeholder groups.

The Group has identified the main stakeholder groups which are relevant to the proper discharge of the duty of the Directors of relevant group companies under section 172(1) to promote the success of their company. These are:

- Train operating companies and freight operating companies – the Group's customers;
- Industry regulators and rail services sponsors (principally the Office of Rail and Road ("ORR"), the Department for Transport ("DfT"), Transport Scotland, Transport for Wales

and Transport for London (in their role providing funding and strategic direction for major rail projects), and other public bodies involved in the UK rail industry;

- The Group's suppliers – train manufacturing companies and other suppliers who supply and maintain rolling stock;
- The Group's external lenders;
- The Group's employees; and
- The Group's owners.

Given the business of the Company, the Board believes these stakeholder groups are relevant to the proper discharge of the duties of the Directors of the Company under section 172(1):

- The Group's external lenders; and
- The Group's owners.

Further details of these groups, and the main methods that the Directors have used to engage with those stakeholders during the course of the year, are set out in the corporate governance statement within the Annual report and financial statements of Eversholt UK Rails Limited for the year ended 31 December 2025.
